

Flipping with Kirch

the ups and downs from inside my flipped classroom

Crystal Kirch

Bretzmann Group, 2016

ISBN : 9780692661901

Contents

As a pioneer of flipped learning, Crystal Kirch opened her classroom experience to the world. Through her blog Crystal shared what she and her students did every step of the way.

Most activities worked exactly as planned, and sometimes Crystal learned right along with her students how to make flipped learning better. Wild successes and challenging setbacks...Crystal shared them all. While she shared, Crystal inspired a generation of flipclass teachers to give flipping a try, keep at it, or continue on to their next iteration of their flipping journey.

Now Crystal Kirch shares all her experiences again in one extensive book. With new ideas, updated information, and precise connections to the best pedagogical practices, she shares her practical strategies to transform teaching and learning. Look inside the classroom of an accomplished flipped learning practitioner. See what can work and understand what to avoid as you enhance your flipping journey by Flipping with Kirch.
